Amendment of the Commission's Rules to	)	
Facilitate the Use of Cellular Telephones and Other	)	WT Docket No. 04-435
Wireless Devices Aboard Airborne Aircraft	)	
<hr/>		

To: The Commission

**COMMENTS OF QUALCOMM INCORPORATED IN SUPPORT OF  
REQUEST FOR EXTENSION OF REPLY COMMENT DEADLINE**

QUALCOMM Incorporated ("QUALCOMM"), by its attorney, hereby submits the following comments in support of the Request for Extension of the Reply Comment Deadline filed in this proceeding by CTIA seeking a 60-day extension of the deadline for the filing of reply comments through August 26, 2005.

QUALCOMM supports the requested extension of time because as QUALCOMM explained in its Comments, QUALCOMM is engaged in a program of development, research, and testing to assess the potential for mobile phone interference to aircraft systems and mobile phone networks and to determine the feasibility of an airborne mobile phone service through use of an on board picocell. QUALCOMM Comments at Pg. i. QUALCOMM also explained in its Comments that "more testing and analysis is required to fully assess the impact of the airborne picocell network to the ground networks." *Id.* at Pg. iii. The extension of time requested by CTIA will enable QUALCOMM and other interested parties to

perform additional testing and analysis that will be of assistance to the Commission ultimately in issuing a decision in this proceeding.

Wherefore, QUALCOMM respectfully requests that the Commission grant the extension of time for the filing of reply comments sought by CTIA.

Respectfully submitted,

By: /s/Dean R. Brenner
